RED FLAG MEN OF EAST SIDE PUT UP TICKET

SOCIALISTS TAKE RAP AT LEGISLATURE AND CONDEM LAWS PASSED.

Chambersburg, Okla., March 1.—Socialists from all parts of the country came today and manifested a full ticket.

The delegates were enthusiastic and reported tremendous gains in all parts of the country. One man from Florida told us that there was only one delegate left in his state community.

The delegation readily scored the democratic machine in both state and county and in very scathing terms denounced the recent acts of the legislature.

William Madison Hicks was nominated for representative in the Oklahoma legislature. J. W. W. Beck, an Oklahoma merchant, was nominated for county treasurer. George Morrison of Collinsville, was nominated for sheriff. H. C. Shidler of Okemah, for county clerk. Rev. H. R. Tanner was nominated for assessor. It is to be noted the strongest ticket ever put out by the socialists of any county in the third congressional district.

Resolution With Blood In It.
The delegation passed the following belligerent resolution:

"Whereas, the machine politicians backed by the crooks on the industrial field of Oklahoma have butchered the people with confiscatory taxation, imposed higher bonded taxes on taxes, schemes and tricks which have reduced the farmers to financial servitude and laborers to wage slaves.

"And, whereas, the banks dirty men who have recently struck the ballot from not only the bankers, but also the whites and the labor leaders, like Caufield and others, are boasting of the infamous work of the machine.

"Therefore, be it resolved, that we will not submit to any such an infamous scheme, even though we must resort to it to the last full measure of our lives, contending by actual force.

"And, be it further resolved, that we ask every man who in any way attacks William, adds to his burdens, the scheme of the machine as a personal enemy and should be treated as such."

"And be it further resolved, that we upon every laboring man, farmer and day laborer, to organize and cause themselves to demand the restoration of the ballot to the people, the ballot which the infernal democratic machine has stolen from the working class.

"And be it further resolved, that we denounce the high handed and cowardly methods which the night actions of popular radicals use in robbing the people of the power of franchise."

"And be it further resolved that we ask the Tulsa World to publish these resolutions and to give them to the Associated Press for publication, and a copy of these resolutions be sent to both Williams by registered mail."

GERMANS SOW SWEDISH COAST WITH BOMB MINES

TO PREVENT TRAFFIC IN CONTRABAND KAISER HAS TAKEN EXPECTED ACTION

Stockholm, Sweden, March 1.—(Reuter)—The new German expected action in laying a mine field around the Finska peninsula, near the southern extremity of Sweden, on the Baltic, started three miles off shore. As the water is nowhere deeper than 15 feet, most merchant sailing ships are obliged to steam outside the field into international waters where German patrols are on patrol.

To Prevent Traffic.

The new mine field is intended to prevent traffic in contraband along the Swedish coast to Finland's ports, but as the smelters used in this traffic draw little water, seldom over ten feet, the mine field has not affected them. All larger ships, however, will be put under German surveillance and not even Sweden's navy will be able to sail from the North sea to the Baltic, nor the reverse without German pilots.

Abandon Traffic.

It is understood that Sweden made energetic representations against the mine field being placed in this way and that Wilhelmshaven was willing to drop the scheme if Sweden would agree to prohibit contraband traffic along her coast. As such a step, however, would present complications, as British and Norwegian ships are largely employed in the traffic and it was felt that it would look like partiality toward the central powers. Sweden, it was said, refused.

The Swedish steamer Knippla, which struck a mine and was sunk yesterday, was the first victim of the mine field. All on board were saved, but there is indignation among Swedes over the occurrence, as no automatic warning was given and the mines were laid by night. Several Swedish destroyers had narrow escapes from striking mines in this field.
